

SUDHEER KUSUME

MERN Full Stack Web Developer

Hyderabad, India | [+91 8919438208](tel:+918919438208) | sudheer.kusume4@gmail.com | [Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

MERN Full Stack Developer with hands-on experience building scalable web and cross-platform mobile applications using MongoDB, Express.js, React.js, Node.js, and TypeScript. Skilled in end-to-end development, from responsive UI design with Tailwind CSS to architecting robust. Experienced integrating advanced features such as facial recognition, geolocation tracking, automated reporting, and push notifications. Quick to adopt new technologies and deliver production-ready solutions in fast-paced environments.

TECHNICAL SKILLS

Front-End: React.js, TypeScript, JavaScript (ES6+), Vite, Tailwind CSS, Bootstrap, HTML5, CSS3, React Query

Back-End: Node.js, Express.js, MongoDB, RESTful APIs

Mobile & Specialized Tools: Capacitor (iOS & Android), Firebase Admin, Leaflet (Maps), Face-API, QR/Barcode Scanning

Workflow & Optimization: Git, GitHub, Cross-Browser Compatibility, SEO Best Practices, PDF/Excel Report Generation, Agile Development

WORK EXPERIENCE

Full Stack Developer | Bmax Private Limited

June 2026 – Present

Spearheaded development of core platforms including Salesbeez (online shopping and franchise platform) and the Real-Beez Employer Dashboard.

- Developed responsive and accessible frontend applications using React.js, TypeScript, Vite, Tailwind CSS, and Radix UI, improving usability across devices.
- Engineered a scalable, high-performance backend infrastructure using Node.js, Express.js, PostgreSQL, and Drizzle ORM.
- Built and shipped cross-platform mobile applications for iOS and Android using Capacitor.
- Implemented end-to-end type safety and efficient state management using Zod and TanStack React Query.
- Integrated advanced system capabilities including facial recognition (Face-API), geolocation tracking (Leaflet), and QR/Barcode scanning.
- Architected automated background tasks using node-cron and configured Firebase Admin for reliable push notifications.
- Developed custom reporting features to generate dynamic, on-demand PDF and Excel (XLSX) exports for employer analytics.

Freelance Web & MERN Full Stack Developer | Kakinada, India

2024

Partnered with multiple clients to design, develop, and deploy full-stack web applications end to end.

- Andhra Restaurant: Designed and developed a full-stack solution with a React.js frontend, Node.js/Express backend, and MongoDB database; integrated custom API services for a seamless digital ordering experience.
- Sai Priya Hotels: Built a comprehensive booking and management system using React.js on the frontend paired with secure backend integration.
- MoreIn & HT_Brand: Developed highly responsive web applications with dynamic, user-centric interfaces, focused on performance optimization and modern design principles.

PROJECTS

Salesbeez

Online shopping and franchise platform built with React.js, TypeScript, Node.js, Express.js, and PostgreSQL.
